

Another award honours Park Hyatt St Kitts

October 15, 2018

Park Hyatt St Kitts

BASSETERRE, St Kitts — Range Developments, the developer of luxury hotel resorts in the Caribbean, said it is delighted that the Park Hyatt St Kitts has been featured in World Travel Magazine's Luxury 50 list.

As the developer of the Park Hyatt St Kitts, Range is particularly pleased to note that the magazine singled out its "understated British-colonial aesthetic" and "panoramic views of Nevis and the Caribbean".

"These newly minted hotels all have secrets to uncover, whether in the stories of their inspirations, history, or in their unique experience of luxury – all designed for exploration of the world within and as oases from the modern world," the magazine said.

"Inclusion on this prestigious list is a testament to all the hard work by everybody involved in the development of the Park Hyatt St Kitts, as well as the quality of the design and construction of the property," said Mohammed Asaria, founder and vice chairman of Range Developments. "Since opening in November last year the hotel has received warm plaudits from guests and locals."

Range launched the Six Senses St Kitts in March of this year, with ground-breaking about to begin. It is also behind the Cabrits Resort Kempinski, Dominica, which is due for completion in the third quarter of 2019. A Kempinski hotel also featured on the list, the Gran Hotel Manzana Kempinski, which is Old Havana's first luxury hotel.
