The 14 best new Caribbean hotels and resorts

Meredith Rosenberg, CNN • Updated 16th February 2018

(CNN) — The 2017 hurricane season was not kind to the Caribbean, when Hurricanes Irma and Maria barreled across Anguilla, Barbuda, the British Virgin Islands, Dominica, Puerto Rico, St. Barts, St. Martin and the U.S. Virgin Islands.

Antigua, the Bahamas, Cuba, the Dominican Republic, Guadeloupe, Martinique, Montserrat, St. Kitts and Nevis and Turks and Caicos were also affected, but all either sustained minimal damage or have already rebounded.

But in a good sign of recovery for the region, a spate of new hotels will join those that have opened within the past year or that have already reopened their doors post—storms. Here are 14 of the best new hotels and resorts opening in the Caribbean:

1. Park Hyatt St. Kitts, St. Kitts & Nevis

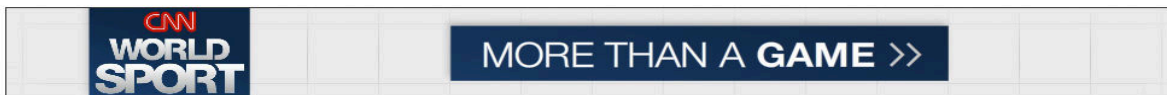

This splashy five-star resort isn't just the first Park Hyatt on St. Kitts, but the first Park Hyatt in the Caribbean.

Luckily, the fall hurricane season spared tiny St. Kitts, allowing the 126-room property to open this past November in a remote section of the undeveloped island.

Of interest is a replica sugar mill where guests can take fitness, yoga and meditation classes, but the real highlight just may be the 37,000-square-foot Miraval Life in Balance Spa, from none other than the renowned Miraval brand.

Those wishing to venture off-site have their pick of outdoor activities, including volcano hiking, but the Park Hyatt can also arrange trips to the UNESCO Brimstone Hill Fortress or provide an island historian for a truly local experience.

Park Hyatt St. Kitts, Banana Bay, South East Peninsula, Parish of St. George, St. Kitts; +1 869 468 1234
